

the chapter 11 bankruptcy proceeding of Manhattan River Group, LLC. We would like to request a hearing with the Judge, Honorable Sean Lane, as soon as possible to request an immediate lift of the stay in this hearing. We are two young people who have been taken advantage of ~~and~~ by ~~the~~ the managing ~~and~~ member, Joshua Rosen, and other member, Jerald Terebaum, of Manhattan River Group, LLC. They knew they commingled our deposits in the amount of \$23,444.00 and dodged us for three weeks when we requested it numerous times upon investigation of their criminal activity at the premises, La Marina, and breach of their lease with the NYC Parks Department. They pressured us to provide a large installment on Nov. 1st, 2018 after we showed knowledge of the issues they were facing and refused to meet with us until confirmed payment, stating we would be in breach. Then days later they took out a loan. They knew they didn't have money and used our good faith deposit to pay themselves. They threatened bankruptcy when we were relentlessly contacting them and told me if I stopped asking for my money they wouldn't file the bankruptcy. As well, as hold off on contacting the media. Two days later they filed bankruptcy, then called us the day after Christmas saying they shouldn't cut us a check. They also purposefully are not contacting, notifying other individual creditors who provided deposits to avoid the repayment or repayments. Please lift the stay so we may file a breach of contract and fraud claim against the individuals and LLC. They cannot be trusted!

Respectfully,

Alexander Whyte and Tempest Alston
